Vol. VII, No 34 | The County Seat Paper | NEVADA CITY, CALIFORNIA | The GOLD Center | FRIDAY, MARCH 9, 1934

Nevada City Airport To Become Important Refueling Station

Nevada City is on the way to being one of the important aviation centers of the Sierras, if not of California.

Mayor R. J. Bennets, home from a trip to San Francisco, last night stated that already President Hyde of the Western Flying Corporation has approached the city council with a proposal to establish a flying school at Nevada City's airport on top of Cement Hill plateau.

Mayor Bennetts declares that United Airlines propose to make their trip from Sacramento to Plumas and northern points directly over Nevada City. This change in routing is due to Nevada City's new airport as a convenient place for refueling. It is confidently anticipated by U. S. aviation authorities that this airport will also be used as a refueling station by airmail and other commercial lines, since it will permit all planes crossing the "hump" to carry lighter fuel loads both going and coming.

From a flying standpoint Nevada City's airport is very strategically located. A few miles to the south is the route of east and west airmail planes, about four minutes flying time from this field. The United Airlines planes propose to cross directly overhead in their northerly and southerly flights, and the lines north from Sacramento to Oroville will pass this airport a few minutes to the west of the airport.

From aviation officials in San Francisco Mayor Bennetts received assurance that money will be available for completing the airport and putting it in first class condition. Maior Vidall in Washington is very much interested in putting forward the great airport program throughout the United States.

The Western Flying Corporation is considering a plan of putting on a great flying demonstration when the airport is completed here.

The city council last evening completed its plan for the municipal swimming pool and prepared to advertise for bids for its construction. Mayor Bennetts remarked that with such weather as the country now enjoys every boy in the country will presently want to "peel", and that they must get forward with the swimming pool. Charles Parsons, landscape architect and a representative of the State Parks Plannig bureau of Sacramento, have both examined the new city park and have confirmed the council's choice of a site for the pool.

W. H. Osborne, F. W. Smith and O. A. Eiberger, representing the dry cleaning and laundry business in this city, appeared before the council to protest the discrimination in license fees charged by Nevada City and Grass Valley to those doing business in both cities. It was stated that the Nevada City laundrymen and dryleaners must pay $10 per quarter for a Grass Valley license, while Nevada City only charges Grass Valley firms engaged in this business in this city $3.00 per quarter. The following bills were ordered paid:

GENERAL FUND

Ada Rich, $85; W. G. Robinson, $125; George H. Calanan, $20; Emma M. Foley, $12.50; Miles Coughlin, $12.50; W. C. Jeffery, $65; Herbert S. Hallett, $62.50; Dr. E. M. Roesner, $25.

Nevada Irrigation District, $51.80; Paficif Gas and Electric, $247.61; Pacific Telephone and Telegraph Co., $5.40; Chamber of Commerce, $15; Nevada Irrigation District, $1.50; Standard Oil Co., of Calif., $38.15; George M. Gildersleeve, $15.

Alpha Stores, $14.91; Christensen Brothers, $13.30; Sam Trevethic, $8; Nevada City Nugget, $6.83; Plaza Garage, $3.44; Nevada Co. Lumber Co., $3.32; Nick Sandow, $90; Chas. Sharp $90; Fred Eilerman, $41.50; Alfred Eddy, $4; Carl Trevethick, $184.37; Carveth Ins. Co., $10.10.

FIRE FUND

H. S. Hallett, $62.50; Pacific Gas and Electric., $5.57; Pacific Telephone Co., $2.55; R. G. Steger, $10.20; Charles Sharp, $4; Calif., Fire Extinguisher Co., $1.22.

MISTLETOE MINE TAKES ORE IN DEVELOPMENT

At the Mistletoe mine in the Rough and Ready district, west of Grass Valley, a crew of six are taking ore out of the shaft. At present it is being loaded on trucks and hauled to the Queen Lil custom mill, at the western limits of Nevada City, where it is being milled.

Superintendent Leboyteaux, is developing the mine and extracting ore at the same time.

Mr. Leboyteaux is a mining man of wide experience. For some time he operated a gravel mine near Goodyears Bar.

Thimble Club Holds Enjoyable Meeting

The Thimble Club of Champion Circle of Woodcraft, held a most enjoyable meeting yesterday afternoon with a good attendance of members.

After the meeting, a social time of games produced much merriment. Refreshments were served.

Hostesses were Marie Haddy, Esther Tremaine, Clara Phillips and Bessie Andrews. Adeline O'Connor won the first prize, Emily Cole, second and Cordelia Dolton consolation prize. Past President Margaret Clark presented all past officers with beautiful bouquets. In a guessing game contest, Cordelia Dalton won first prize, Ada Masterson second, Kanutski third, and Martha Dillon fourth.

NEWCASTLE TO LOOMIS ROAD TO CUT OUT KINKS

LOOMIS, Mar. 8.—Five miles of state highway extending on a straight line from the outskirts of Loomis almost to the town of Newcastle, and extending through the Placer county granite belt, are being constructed by the Morgan Paving Company.

When completed, this straight stretch of highway will eliminate from the Sacramento-Auburn highway many dangerous curves, including the well known hairpin curve between Penryn and Newcastle, which has been the scene of many fatal accidents during the past fifteen years.

By traveling virtually on a straight line, the new highway will make the business district of Penryn a quarter of a mile from the main traffic arterial.

Two Loomis business houses were razed in order to make a straight exit from the city of Loomis. One of the buildings was the old Loomis beer garden, said to have been the first structure built at Loomis.

Because it travels through the granite belt of Placer county, the new stretch of highway requires many difficult cuts and considerable blasting has been necessary.

Near Loomis, the construction of the highway started a mild gold rush as values were found in some of the excavations made by the highway workers. However, the necessity for completing the contract put a quick halt to mining operations. Several miners reported taking out values from $20 to $40 each during the few days mining was possible.

Rights-of-way for the new stretch have resulted in the distribution of approximately $100,000 among the owners of property over the five mile course, which passes through many deciduous fruit orchards between Loomis and Newcastle.

GIRL SKEET SHOOTER IMPROVES RECORD

About fifteen members of the Nevada City Skeet Shooters Club were present last Sunday and fair scores were made. Catherine Tognarelli, 12 year old girl shooter, was the most consistent in her shooting, making two thirteens and two fifteens.

A Skeet Shoot meeting is to be held next Tuesday evening, to discuss important business matters.

FALL NOT LIKELY TO HAVE CAUSED HOGAN'S DEATH

Reports of a postmortem examination of the head of Francis Hogan, who passed away after having suffered a mysterious injury some weeks ago, indicate that the hemmorhage caused by a blow upon the head had resulted in a degeneration of brain tissues from which death was inevitable. The examination was made in San Francisco and further results of a legal postmortem are now being awaited.

Whether the injury to his head, a comparatively small rough cut, was caused through some external force,such as being forced against some sharp object, a stone hurled at him, or a club of some kind, still remains much of a mystery. It is not generally believed however, that the wound was caused by a fall, for it was too high on the skull to have caused in that manner.

Sheriff George Carter is pursuing his investigation of the case.

PASQUALE ROAD TO BE IMPROVED

The board of supervisors on Wednesday inspected the road which leads from the end of Park avenue to the Red Dog road above the cemetery, with a view of estimating the cost and planning some improvement in response to the petition signed by residents along the road and other citizens.

Since it will be necessary to obtain rights of way for parts of the proposed i mprovement, no action was taken, but plans will be made sometime in the future for widening and straightening when the board has the money available.

The Pasquale road from the Red Dog road to Quaker Hill, was examined and the board determined to put the force of CWA workers, now employed on Edwards grade, at work on this road as soon as their present job is completed. It is proposed to widen and straighten Pasquale road.

The board postponed action toward establishing a county emergency relief fund to take care of unemployed persons when the CWA project is concluded the first of May. This fund would be administered by a County Emergency Relief Committee. The board decided that there is no immediate necessity of setting aside this fund.

SBDIVISION NEAR THE MURCHIE MINE ON SALE

Mr. and Mrs. Charles Janis, who moved to this district several months ago, purchased a tract of land east of Nevada City, near the Bridges property, a half-mile from the Murchie mine.

They have sub-divided the property and are now selling parcels of land for homes.

Quite a little settlement has sprung up in the neighborhood.

Among the homes are a log cabin or two. One of the log cabins was sold recently and the new owners, Mr. and Mrs. Shearer, moved in yesterday.

MINING MEN TO MEET IN DOWNIEVILLE

Alta Californians Inc., are holding their next regional meeting at Downieville tomorrow, Saturday, March 10. Interested mining men and citizens of Sierra, Nevada, Yuba and Placer counties are invited to be present.

The meeting is to be devoted to mining. A luncheon is to be enjoyed at the St. Charles hotel at noon, and the meeting will then continue through part of the afternoon.

Banner Mt. Post Meets Tonight

Banner Mountain Post, V. F. W., Auxiliary, is holding a meeting this Friday evening.

A good attendance is expected as a number of interesting questions are to be discussed and a social time enjoyed.

SIERRA COUNTY SHERIFF TARGET OF GUN WEILDER

The Downieville correspondent of the Nevada City Nugget reports that Elmer P. Thompson, brother-in-law of Sheriff W. D. Johnson, is in the Sierra County jail charged with assault with a deadly weapon upon the sheriff. Frederick Ramus, friend of the two men, is suffering from a bullet wound in one hand as a result of tryiug to halt Thompson's attack on the sheriff.

The shooting is said to have followed the action of the sheriff in arranging for R. Daneri to drive Mr. Thompson and Albert Keller, both reported to have been somewhat incapacitated, to their homes in Sierra City. As the sheriff sought to place Keller in the car, Thompson is said to have drawn his gun. Both Daneri and Ramus attempted to wrest it from him and the gun was discharged during the tussle.

LOVE STORIES OF BIBLE WILL BE PULPIT THEME

Mrs. H. H. Buckner, with the assistance of five ladies, is preparing to give a special program, "Love Stories of the Bible," this Sunday evening, March 11, at the Methodist church at 7:30 p. m.

Rev. Buckner will be away in the upper country preaching and Mrs. Buckner is putting forth every effort to make this a keenly interesting affair. The ladies assisting in the program are: Mesdames E. K. Taft, Maude Moody, Ernest Towle, A. A. Price, and Edward Bacon. Mrs. George Gibson is to be the pianist and Miss Thelma Teft, soloist.

The church services now begin at 7:30. All members and friends of the church are cordially invited.

TRAFFIC VIOLATOR AND A FRIEND ARE JAILED

Captain Joe Blake, of the traffic patrol, overtook Frank Cowden on the highway at Town Talk Wednesday evening and as he was arresting him, Mr. J. Newman, who was with Cowden, became abusive.

They were both brought to the county jail in Nevada City. Complaints were sworn out Thursday charging the first with drunken driving and the latter with disturbing the peace.

LAVA CAP MILLS EIGHTY TONS OF ORE DAILY

Eighty tons of ore is being milled and regular shipments of concentrates are going to the smelter in the bay region from the Lava Cap Gold Mine.

One hundred and ten men are employed.

NEVADA COUNTY C W A PAYROLL CUT TO $3,370

SAN FRANCISCO, Mar. 7.—California's CWA payroll for the week ending March 1, amounted to $1,880,605, it was announced today.

Nevada county's payroll for 301 persons, for the week was $3,370.

This total is a decrease of $103,632 under the amount disbursed the preceding week. Payroll figures how the money to have been disbursed to 134,467 persons—a decrease of 15,955 under the previous week's figure.

In addition, approximately $48,000 was disbursed in wages to 4,724 men in state camps for single resident men.

Mr. and Mrs. Ben Bowman, of the barber and beauty shop firm of that name, have left for a few days trip to Alturas, where they have business interests. Mrs. Bowman has not fully recovered from the operation upon her foot, to endure the constant standing necessary in her vocation.

The H. B. Dow building on Main street has been renovated. Living quarters have been built over the good sized store.

House Committee Favors Englebright Hydraulic Dam Bill

(From the Sacramento Bee)

WASHINGTON, D. C.—March 8.—The Englebright bill, which for the first time in the history of mining, will permit the appropriation of federal funds for hydraulic dam construction, was today favorably reported by the house committee on mines and mining.

Representative Harry Englebright, Republican of Nevada City, author of the measure, spent more than half an hour explaining the measure to committee members, and after he concluded the committee acted unanimously.

PAYS ON GROSS PROCEEDS

Section 23 of the act to create the California Debris Commission and regulate hydraulic mining in the state which was approved in 1893, related to the method of taxing or charging mine operators for storage of debris behind dams and to the application of moneys received.

The existing act provides that the mine operator shall pay a tax of 3 per cent of the gross proceeds of the mine.

METHOD IS SUBSTITUTED

The Englebright amendment substitutes a different method of taxation. It provides that the mine operator shall pay for each cubic yard mined from the natural bank a tax equal to the total capital cost of the dam, reservoir and rights of way, divided by the total capacity of the rehervoir as determined by the commission, such tax to be paid annually on a date fixed by the commission.

"This method of taxation," said Englebright, "appears to be more equitable than the one prescribed in existing law, and was recommended by the commission in a report filed in 1928. The chief of engineers and the board of engineers for rivers and harbors also reported favorably."

CHANGES FUND PURPOSE

The present law provides that all money received in payment for storage space shall be placed in a debris fund to be expended in the construction and maintenance of retention works.

Englebright believes this fund should be applied solely to maintenance and to the repayment of money advanced by the federal government or other agency for construction purposes.

GOES ON CALENDAR

The measure now goes on the house calendar and Englebright explained he will take advantage of the first calendar day to press for passage.

In Englebright's opinion this is one of the most important bills that could be passed by congress in the interest of profitable and intelligent hydraulic mining in California.

THREE SHIFTS NOW WORKING IN HUSSEY MINE

Work at the Hussey mine is now progressing on a three shift basis. Sinking another lift in the shaft was started about the first of the week, and it is thought that by having three shifts working, the shaft can be sunk without interfering with the stoping operations above the present working level. The bottom of the shaft is now about twenty-five feet below the level, and the ore continues to be of as good grade, with no decrease in strength of vein, from that on the level above. With the holing through of a raise to the surface a short distance east of the shaft, the mine is now provided with excellent ventilation as well as a secondary exit.

With only a small amount of sorting, all of the rock from the shaft is being milled. When a depth of 75 feet below the present working level has been reached, it is planned to cut a station and start drifting in both directions on the vein, before continuing sinking, thereby affording more working places and an opportunity to considerably augment production.

The Hussey mine is operated by West Mines Corporation of which Mr. O. McCraney is President.

At the Canada Hill mine, also operated by West Mines Corporation, the No. 19 level is being pushed rapidly to the north to intersect the St. Louis vein. Small fissures paralleling the St. Louis have been cut during the last few days, which carry a considerable amount of mineral and a great deal of water. These indications point to the likelihood of cutting the vein itself on it to the east and to the west. From surface indications, and old workings near the surface, there is every likelihood that several shoots of ore will be developed on this vein.

The ore from West Mines properties is treated at the Queen Lil mill. The mill was acquired, not only to handle the West Mines ores, but to handle custom work as well, especially test runs. Several of these test runs have been made during the last few weeks, but with the increasing amount of ore from the Hussey mine it is becoming increasingly difficult to accomodate custom oreh. The demand for this class of work is a healthy indicator of the increased activity among the operators of small properties, due to the present prices of gold.

LEASERS STOPE ORE IN BLACK BEAR MINE

Three men are leasing the Black Bear mine of the Cooley Butler interests in the Rough and Ready district.

At present, they are stoping and hauling ore to the Golden Center mine mill in Grass Valley, where it it being milled.

B. Syms, of Nevada City, is one of the leasers.

FIGHTING EVERY INCH, N. C. CAGERS WALLOPED

BY HARLEY LEETE JR.

The old Armory Tuesday evening was again the scene of notable basketball fray, this time in all three divisions of players, Nevada City went down to defeat at the hands of Grass Valley. A score—Grass Valley 46—Nevada City 28, B. score—Grass Valley 30—Nevada City 9, C score—Grass Valley 21—Nevada City 11.

The lop-sided scores were not caused certainly by lack of Nevada City fight, of which there was a most bountiful, if misdirected supply.

Starters for Nevada City cassaba pushers—Class A, were: C. Schiffner, C. Steger, Pierce, Tamblyn, and Rozinski.—Joyal subbed. B team started Stevens, Lopez, Polkinghorn, Steger, and Doolittle. Budi, Thomas, Tuttle, and Jones were reserves for the B's.

Started on the C team which lost to Grass Valley, were: B. Schiffner, Wilde, Elliot, Leete, and Moores with Lacey Jones, Marriot and Joyal benchmen in action.

The evening was one of most colorful of the season, the crowded hall, waving pom-poms, and eager candy vendors furnishing a fitting frame for the happy, yelling students.

Being held on a school night, the games were unusually well attended.

The events were preceeded by a pep rally assembly at the high school. Bill Kirkham, assisted by Ray Wilde and Dick Stevens, officiating. Bob Tamblyn ex-yell leader, lead several well-supported yells. Impromtu speeches were made by Cecil Schiffner (A team), Albert Pratti (B team), and Art Elliot (C team). Mr. Barron and Mr. Kjorlie urged a large attendance at the games.

Two Sisters Join Evangeline Chapter

At a meeting of Evangeline Chapter Tuesday evening, Miss Lois Eden and sister, Mrs. Howard Penrose, were initiated into the order.

Visitors from Grass Valley were Deputy Grand Matron Vera Ingram and Mesdames Will Coughlin and H. Howe.

After adjournment, all enjoyed refreshments at Foley's Confectionery.

SCHOOL BELL RINGS AT CAMPTONVILLE

CAMPTONVILLE, Mar. 7.—The old school bell in the Camptonville Union grammar school bell tower pealed out Monday morning, indicating to youthful ears, that school days were here again, and with book in hand, the little tots, wandered to the old school house, where in the past many years, the residents of this section, have spent some of the most happy days of their life.

An unusual feature of the opening of school was the fine spring weather, for usually, this eventful day is welcomed with a blizzard or snow storm. Instead, the fields show a fresh carpet of green grass and the fragrance of blossoms and flowers in the air, give the young folks added pep and vim.

Mrs. Grace Pauly is principal of the Camptonville Union grammar school with Mrs. Constance Pfiffer in charge of the primary department. Mrs. Kate Hope Livingston is in charge of the Camptonville Branch of the Marysville Union grammar school.

Mrs. Mattie J. Reynolds and her daughter-in-law, Mrs. T. W. Reynolds are spending a few days in Sacramento.

FORCES OF C W A MUCH REDUCED

SAN FRANCISCO, March 8.—Reduced quotas for California counties, effective March 9, were announced here by Captain Edward Macauley, Federal Civil Works Administrator for California, in revealing that 9,525 persons would be dropped from CWA payrolls.

Nevada county forces are reduced by 17 men.

The greatest reduction will be made in Los Angeles county, where 4,808 persons will be dropped. In San Francisco county, 1,176 persons will be dropped.

In announcing these reductions, Captain Macauley said:

"It is necessary that this CWA program be wound up as quickly as possible in order to clear the way for President Roosevelt's new program of relief.

"It is regrettable, of course, that these persons must be deprived of their jobs temporarily, but CWA never was meant as a permanent program. On the contrary, when it was created the President made it plain that the program was merely a stopgap to provide jobs for as many of the needy as possible.

"There is a possibility that the new program which Mr. Roosevelt has announced will be inaugurated in California even before demobilization of CWA is completed. Reports which have been received at CWA headquarters here indicate that this new program was instituted in some states this week, but in those states the CWA program has been abandoned completely."

POWERFUL RAY DISCOVERED

A new ray has been discovered which gives the scientists a more effective weapon for attacks on the atom. This ray, more penetrating than that of radium, consists of a stream of neutrons flowing from a machine at the rate of 10,000,000 per second and is hard to control as there is no way to aim it. There is no substance known which will resist it. Hydrogen, lightest of the elements. Offers more resistence than any other. It is manufactured by taking the double weight of hydrogen atoms of heavy water and hurling them against a metal target with a force of 12,000 to 20,000 volts. The atoms break into protons and neutrons and the latter are filtered out to be used as a ray.

COSMIC RAY SHOWERS

Study of cosmic rays goes on and new facts are constantly being added to those already known as efforts continue to discover their source. It has been found that they do not strike the earth in a steady stream but occasionally appear in bursts or showers. These occur two or three times a day at sea level but much more frequently at high altitudes. Prof. Robert A. Millikan, California physicist, suggests that these bursts are really caused by the instruments themselves. Dr. Axel Corlin, of the Lund observatory in Sweden, reports a new type of cosmic ray which penetrates 525 feet of iron ore, equal to 2,620 feet of water.

FORMER PIKE CITY MAN DIES IN MASONIC HOME

CAMPTONVILLE, Mar. 7.—Alfred Anderson passed away at the Masonic Home at Decoto Monday morning, March 5th., after a brief illness. Although he had been in ill health for many years, his demise came as a surprise to his many friends.

Alfred Anderson spent most of his life in this section and above Pike City, where he engaged in mining and in timber work. Over twenty years ago he was stricken with a rheumatic trouble and after spending much money doctoring and getting no relief, and after one doctor informed him that he could never expect to be cured, he decided to go to the Masonic Home where he has spent the last twenty years of his life. He was not an invalid and was able to do moderate work, but never could do hard labor, his trouble being in his lower limbs. At the home he took care of the temple.

Deceased was well known in this section and had a large number of friends who were sorrowed at the news of his passing. So far as is known, there are no surviving relatives. He was a member of Gravel Range Lodge No. 59 F & A M of this place.

Funeral services will be held at the Oakland Crematorium where the body will be creamated and the ashes forwarded here where Gravel Range Lodge No. 59 F & A M will hold a memorial service and commit them to the Masonic cemetery.

BABY HAS TWO-INCH TAIL

At last biologists have for complete scientific study an unquestionable instance of a human with a tail. In January, says Dr. E. E. Free, a baby girl was born in London with a thin, curly tail about two inches long. The baby, whose name and parentage are being kept secret, was taken to a hospital where leading surgeons, biologists and evolutionists examined it. The tail is tapered to a point, seems to be composed of normal muscles, skin and other tissues with the usual touch nerves so that a sensation may be felt in it. The baby has been growing normally and regularly and to the scientists' surprise the tail has also. Whether or not it would continue to grow and develop the muscular power of a monkey's tail could be determined only by letting it grow. But this is not likely as the surgeons will soon remove it in the baby's own interest. It is a simpler operation now that it would be later on.

CRACKED BATTERY

Moisture on the top of the storage battery and container is an indication of a crack in the sealing compound used to seal the jars, according to the Emergency Road Service of the California State Automobile Association. Such leaks should be checked at once, as they permit the acid to leak out and eventually be replaced with distilled water, thereby lowering the specific gravity of the leaky cell.

RENO GETS BAMK OF AMER. BRANCH

RENO, Mar. 8.—Acquqisition of the First National Bank in Reno, Nevada, by Transamerica Corporation was announced today by John M. Grant, President.

The purchase climaxed negotiations which have gone on intermittently for some time. Committees representing all interests in Nevada united to request Transamerica to make its experience, resources and services available in the state, where banking service has been greatly curtailed.

According to the announcement of Mr. Grant, Transamerica is purchasing the entire capital stock of the First National in Reno, an institution of $7,500,000 resources and with deposits of $7,000,000

All officers, including Richard Kirman, president, and Walter J. Harris, vice president and manager, will remain with the Reno institution under the new ownership, and all personnel will be retained.

In announcing the purchase, Mr. Grant said, "It is the policy of Transamerica Corporation, through the banks which it controls, to provide adequate banking service in all localities within its operating terirtory where the public demands such service and where it can be rendered on an advantageous basis. This policy will be followed in Nevada.

"Bank of America, which is owned by Transamerica, covers the state of California with 415 branches in 248 communities. First National Bank of Portland, which is controlled by Transamerica, is now operating 16 branches in the state of Oregon. The First National Bank in Reno, well known for its strength, conservative management and liquidity of assets, is a welcome addition to our organization."

WORN PISTON RINGS

When the engine lacks power, has poor compression, pumps oil, and uses an excessive amount of fuel, it is probable that the piston rings are worn and do not fit properly, according to the Emergency Road Service of the California State Automobile Association. The rings are intended to seal the cylinder so as to prevent gasoline from leaking downward and oil upward. This should be accomplished without excessive pressure on the cylinder wall. A perfect fit means even pressure at all points.

TRINITY GUILD MEETS

Trinity Guild of the Trinity Episcopal church met Wednesday afternoon. There was a good attendance of members.

SUBCFIBE FOR THE NEVADA CITY NUGGET NOW $2.50 A YEAR

YOUR CHILD AND THE SCHOOL

By Dr. ALLEN G. IRELAND
Director, Physical and Health Education
New Jersey State Department of Public Instruction

What Should Children Eat?

I'm often asked what growing school children should eat. These are the essentials of the best possible daily diet:

1. A quart of milk, "the most nearly perfect food," in some form, that is, as a beverage, in custards and puddings, on cereals.
2. Generous servings of at least two vegetables; one cooked vegetable one green-leafy vegetable, and tomato in some form daily. Every mother should be familiar with the exceptional value of the tomato.
3. Fruit, either raw or cooked. There is especial merit in the fruit-juice beverages made from the orange, the lemon, or grapefruit though tomatoes and tomato juice which are less expensive, will take the place of the citrus fruits.
4. Egg, meat, or fish, in moderate amounts as compared to the above basic foods, should appear in every child's diet.
5. Bread and butter are also essentials. The kind of bread does not matter if the child is receiving his daily ration of fruits and vegetables. Lacking these, whole wheat bread is necessary.

Nex week Dr. Ireland will discuss the symptoms of eye strain.

CAMPTONVILLE—PIKE MAIL CONTRACT LET

CAMPTONVILLE, Mar. 6.—Edward A. Espinosa, of Pike City, has been awarded the contract to carry the mail between Camptonville and Pike City for the next four years. Information was received from Washington Monday verifying that he had put in the lowest bid and had been awarded the contract.

The many friends of the contractor are glad to learn of his success in getting the bid; he has been carrying the mail for W. H. Wayman, recent contractor for the past year and a half, and last winter during the deep snow, for several weeks he carried the mail on his back by snowshoe, and the mail went through every day regardless of conditions.

Mrs. Thomas Brady and daughter, Mrs. L. L. Myers, of Alleghany were Nevada City visitors this week.

Severe illness is confining Mrs. Rose Jones to her home.

FUNERAL SERVICE FOR DOWNIEVILLE RESIDENT

Funeral services were held Tuesday for the late Mrs. Mabel Richardson, for 25 years a resident of Downieville. Mrs. W. B. Magonigal of Grass Valley, Christian Science reader, conducted the service. A quartet consisting of Mrs. W. M. Barton, Mrs. W. Robins, Mrs. Antone Lavezzola, and Mrs. August Costa, sang appropriate anthems. Pall bearers were A. E. Pefzola, George Costa, R. F. Taylor, A. Costa, Tony Lavezzola and R. Demari.

WATER IN CRANKCASE

Water in the crankcase may usually be traced to one of three causes: Loose cylinder head gasket, a cracked cylinder head or a sand hole in the water jacket, according to the Emergency Road Service of the California State Automobile Association.

TREAD AIDS SAFETY

The front tire with the best tread should be placed on the left front wheel for safest driving, especially in wet weather, suggests the Emergency Road Service of the California State Automobile Association.

Mr. and Mrs. James Dolan were business visitors in Sacramento Tuesday.

William B. Celio, business man of Nevada City, is confined to his home with a severe attack of rheumatism. He has been suffering with it for some time and the last attack is proving very painful. His friends hope for him a speedy recovery.

Ross Taylor, county surveyor of Sierra, was a business visitor in Nevada City Tuesday.

OAK VALLEY RESIDENT SUMMONED BY DEATH

CAMPTONVILLE, Mar. 7.—Benjamin A. Wells, a resident of Oak Valley, passed away Thursday at a hospital in Oakland following an illness of many months having suffered from lung trouble as a result from being gassed in the world war.

The Wells family came into this section last spring, and resided for a time in the Locey house on Spring street, later buying out the mining claim and dwelling of Chas J. Smith on Willow Creek in Oak Valley.

Deceased has been bedfast for several months, and little hope was held for his recovery. He is a native of San Francisco. He is survived by a wife, two children, a small boy and girl.

The community joins in extending sympathy to the bereaved relatives.

WHY WE SEE SHOOTING STARS

Most meteors or "shooting stars" are 50 miles or more above the earth when we see them and are actually no larger than a rifle bullet. They become heated from the friction of the air and are burned out by the time they approach within 30 miles or so above the earth's surface. We do not see these small meteors, explains Dr. Ernest Opik, Harvard university astronomer, but really see the air atoms which are heated to the intensity of light along the path traveled by the meteor. This path is often many thousands of times wider than the meteor itself. Of course, it is but a matter of a second or so until the path has cooled and faded.

Mrs. Frank Guenther is quite ill at her home on upper Nevada street. She is suffering from a severe cold.

LOST MOTION

The King of France had many men—
At least, so I have heard;
They climbed a hill at his command
And marched down at his word;
I can't see just what good it did,
This marching up and down,
Unless it served to entertain
The folk down in the town.

Napoleon had armies vast,
And so with greed for gain,
He marched them to old Moscow town
And marched them back again;
He didn't win a single thing,
So far as I can see;
They might as well have staid at home
In calm Serenity.

Will Rogers travels to and fro—
He flies from here to there;
But he's as well beloved at home
As when he's in the air.
Lost motion, so it seems to me,
Must stack up mighty fast;
Why can't we call a halt at times
And make the substance last?

What ho, we catch a criminal!
Where shall we keep him, pray?
"Oh, put him in this guarded cell—
He'll never get away."
But with a hand carved wooden gun
He makes our blood run cold;
He marches in, he marches out—
A bandit, tough and bold.

A. Merriam Conner.

There was a splendid attendance of members of the Gold Flat Thursday Club at the home of Mrs. Harold Clemo on Walrath avenue last evening.

This was the first meeting of the year and a happy social time was enjoyed.

Mrs. Sue Anderson and daughter, Miss Lodema Stacey, of Oakland, arrived Tuesday evening for a visit with the former's parents, Mr. and Mrs. C. A. Shurtleff of Gold Flat.

CAMPTONVILLE

By ACTON M. CLEVELAND

CAMPTONVILLE, Mar. 7.—James Porter motored to Nevada City Thursday on a short business visit. He has been ill during the past week, suffering from liver trouble.

Warren Scott was in town Wednesday with a new truck loaded with fresh meats from his father's meat market at Downieville. Scott formerly conducted a meat route through this section, and is now re-establishing the same, and his many friends are glad to know that he will be in this section every Wednesday, giving them an opportunity to obtain fresh meats which they could not other wise get locally.

Mr. and Mrs. Acton M. Cleveland motored to Marysville Thursday, where Mr. Cleveland had a conference with County Assessor J. U. Pearson, to become familar with new regulations in regards to assessment and taxation of automobiles, Mr. Cleveland, being Deputy for this section.

Erle Pauly and Hubert Long left Monday for Oakland to spend a few days visiting relatives.

Floyd Cartwright, of Grass Valley, was in town Thursday with a load of produce.

Mrs. Kate Hope Livingston, in charge of the local high school, returned from Los Angeles where she spent the winter vacation.

W. D. Vanderhoff, of Sacramento, was in town Friday on a short business visit.

Mrs. Agnes Weber Meade, County Superintendent of Schools, and Miss Weber, a county health nurse, of Marysville, were in town Friday on official business.

Morris English and H. C. Smith left Friday for San Francisco.

J. B. Stevens, who has operated the steam shovel at the True Grit mine for the past several months, left Saturday for Rio Vista. He brought the shovel to town to be stored for the present, after completing the several miles of new ditch.

Livingston Cloman returned Friday from Los Angeles where he spent the winter, and will resume his studies at the Camptonville Branch high school.

Julius E. Pauly left Friday for the lower country returning with his wife and sons Warren and Leland after the latter spent a week visiting relatives at Oakland.

G. H. Allen, totally blind, was in town Saturday as a representative of a blind broom manufacturing company at San Francisco.

Mr. and Mrs. Earl L. Cleveland arrived Sunday from Sacramento on a two days visit to their home here.

Judge Robert M. Scott of Downieville, was in town Monday on a short business visit.

William C. Meek, of Marysville, was in town Monday on official business for the CWA.

Charles W. Turner and C. E. Turner went to the True Grit mine Saturday to be employed.

John F. Lord left Sunday for Sacramento, where he will resume his studies in the Junior College after several months leave on account of a severe illness. His many friends are glad to see him fully recovered and able to resume his studies.

James L. Joubert returned to Sacramento Sunday after spending the week end visiting relatives at Oak Valley.

Mrs. Acton M. Cleveland motored to Sacramento Saturday to spend the week end visiting her daughter, Earlyne A. Cleveland.

F. R. Fowler motored to Oakland a few days ago on a short business visit.

Albert H. Hamilton motored to Nevada City a few days ago on a short business visit.

ELKS LODGE ORGANIZED IN PLUMAS COUNTY

A large delegation of Nevada City Elks will assist Saturday night in initiating a class of twenty in Portola, Plumas county, into a new branch of the order which has been founded there. The Nevada City lodge at a special meeting Wednesday night made all arrangements for the trip. They are assured a hospitable reception and a good time on the part of Portola residents.

CAMPTONVILLE WEATHER

CAMPTONVILLE, Mar. 7.—The monthly weather report for February as compiled by Elmer S. R. Hall, local observer for the U. S. Weather Bureau, indicates 10.27 inches of precipitation for the month, with 2.25 inches being the greatest in 24 hours on the 26th. No snow fall is recorded for the month. The minimum temperature on the 9th and 11th registered 28 degrees with a maximum of 66 degrees on the 2nd and 4th.

Total rainfall for the season up to March 1, is 37.99 inches, which is below normal.

BOY SCOUTS PASS TENDERFOOT TESTS

A Court of Review was held Tuesday evening at which time the tenderfoot test was given the followig boys: Max Bandy, Jerry and Jack O'Neill, Bob Tobiassen, Bill Sharp, Ainsley Fouyer. The boys were complimented for their excellent work and in making such splendid progress in so short a time. They are now ready for the second class.

Carl Tobiassen Jr., was made a second class scout, and John Green, recently of San Diego, came in also as a second class scout.

Fan Robins, passed his test and was made a star scout.

On Wednesday evening a Court of Honor was held and five merit badges were presented to Bob Small, Dick Tuttle, Fan Robins, Albert Pratti and Dick Marriott. These boys are deeply interested in their work and are rewarded for their efforts.

Now is the time to select your new wall paper. Just received our new 1934 wallpaper book, containing many beautiful designs.

SIMPLE LOGIC:

Electric Range + Electric Water Heater + new low electric rate = MONEY SAVED

1¢ *per kilowatt hour! A new low electric rate for cooking and water heating on the lower block rate.*

THE steadily increasing popularity of electric cooking proves one point beyond a doubt. If you try one of the modern, super-speedy electric ranges, the odds are very much against your ever going back to any other type of kitchen cooking device.

So great is the contrast between the automatic way in which the electric range carries out your cooking orders from the standing-by watching and hoping method of non-automatic stoves, your decision will be immediate. Cooking is better, easier, simpler with the modern electric range.

As a companion convenience to match the modern performance of the electric range you will want one of the highly efficient, automatic storage type electric water heaters. The combined price of these two kitchen companions you will find to be exceptionally low this year. Now isn't this the first thing to be done in the spring program of improving and modernizing your home?

Best of all by using the electric range and the electric water heater with a demand control switch you will enjoy the new low electric rate of one cent per kilowatt hour. Get the facts on this new deal for the kitchen. We know you will be enthusiastic.

It takes only about 3% of the family budget to give the services of an electric percolator, toaster, radio, refrigerator, lights, electric clock, washing machine, iron, vacuum cleaner and other lesser appliances. Electricity renders many services at little cost.

Arbor Day Program Enjoyed by Laurel Parlor

A most enjoyable meeting of Laurel Parlor, N. D. G. W., was held Wednesday evening in the Odd Fellows hall with 40 members present. The initiatory degree was conferred on a candidate. After the meeting a program in honor of Arbor Day was rendered followed by card games. Mrs. Edna Maguire won high score, Miss Frieda Hieronimous, second, and Mrs. Ida Sweeney, third. The door prize was won by Mrs. Annie Godfrey. Several visitors from Manzanita Parlor, of Grass Valley were present.

The Dixie Cafe on Commercial street is being given a new coat of stucco finish.

Legion Auxiliary Bridge Party Largely Attended

Twenty-five tables of cards were played at the American Legion Auxiliary card party in Grass Valley Wednesday evening. The party was a benefit affair as the ladies wished to purchase costumes for the drill team and they were pleased with the sum of money obtained.

A hooked rug that cost $20 was awarded to Mrs. Peggy Flynn of Nevada City as a prize. Mrs. Minnie Sandow, of Nevada City, won high score in whist, while Mrs. Adel Wasley, of Grass Valley, won a beautiful pieced quilt, offered as a prize.

Among those of Nevada City attending were: Mesdames, Carl Tobiassen, Peggy Flynn, Jane Baker, Nance Scheidick, Clara Phillips, Maria Ninnis, Bernice Renfree, U. Truscott, Tom Jones, Pinckney Armstrong, Taylor, Brisbill and Luther Marsh.

Epworth League to Be Reorganized

Mrs. H. H. Buckner urges all young people elegible for Epworth League work to attend a meeting at the Methodist parsonage Sunday evening at 6:15.

There is to be a short devotional meeting and plans are to be made for reorganization.

Carl Tobiassen has been quite ill this week from the effects of having two bad teeth extracted.

Miss Romona Joy Weds Woodrow Kistle

Miss Ramona Joy and Woodrow W. Kistle, of Nevada City, slipped quietly away to Reno last Tuesday and were united in marriage. The wedding came as a surprise to their many friends who wish them happiness.

The bride, an attractive young woman, moved to Nevada City several months ago from Sacramento.

The groom was born and reared in the Nevada City district. At present he is employed on the CWA crew at the airport. Mr. Kistle is the son of Mr. A. Kistle and the late Mrs. Kistle who have a family of 20 children. Four of his sisters have married, but he is the first boy of the family to wed.

Mrs. Edward Rose is leaving Sunday for San Francisco, where she will spend a few days purchasing new spring goods.

John Delbridge, of Grass Valley, visited with his cousin, Mrs. W. E. Young, in Nevada City Monday.

LUMBER TALKS

Spring trips across the mountains
In festive garments gay,
The golden sun above us
Illumines each passing day;
The flowers are gaily blooming,
The wild birds sing together;
And this, my lads and lassies,
Is California weather.
A. M. C.

Weathering

Weathered homes, weathered roofs, weathered faces—there is a human appeal about them. They connote much—old ties of friendship—bygone days of content—youthful dreams—well beloved paths, gardens and thresholds.

But weathering we are sorry to state (coming around to the practical from the ideal), is one of the worst foes of buildings. The bright beautiful sunlight checks your siding, cracks your roofs shingles, shrinks your door and window frames, and lets the weather through when you wish to shut it out.

THEREFORE PAINT,

It's bright and clean. It makes old things new again, and preserves the home or the palace against the ravages of weather. Let us quote you paint prices. It will surprise you to learn how cheaply you can present a brand new face to the world and to the weather, with a coat of paint.
